Circular

Ref No. IT-11/3/2026-IT **Date: 19.11.2026**

To All,

Pharmacists having registered via the BH-P number

Sub: Blocking of Duplicate BH-P IDs and Mandatory Fresh Registration on DIGI-PHARMed Portal

Sir/ Madam,

It has been observed during the verification of pharmacist records on the DIGI-PHARMed Portal that multiple BH-P IDs have been generated against the same pharmacist details, with several accounts sharing identical mobile numbers and/or email IDs. Such duplicate registrations have resulted in inconsistencies and discrepancies in the pharmacist database, affecting the accuracy and integrity of the records maintained by the Pharmacy Council of India (PCI).

Further, it has also been observed that several pharmacists are either not registered on the Aadhaar Enabled Biometric Attendance System (AEBAS) or, despite being registered, are not regularly marking their attendance through the system.

In view of the above, PCI is undertaking necessary corrective measures to ensure the accuracy, authenticity and consistency of pharmacist records. Accordingly, the following directions are hereby issued:

1. **Blocking of Duplicate / Non-compliant BH-P IDs:** PCI is proceeding with the blocking of identified duplicate and/or non-compliant Pharmacist BH-P IDs. The list of BH-P IDs blocked pursuant to this exercise is enclosed as Annexure-I to this circular.
2. **Mandatory Fresh Registration:** All pharmacists whose BH-P IDs have been blocked are required to complete fresh registration on the DIGI-PHARMed Portal.
3. **Aadhaar-based Details:** During fresh registration, pharmacists must ensure that their name and address are entered strictly in accordance with their Aadhaar records. Any discrepancy or incorrect information may result in rejection or blocking of the registration.
4. **Correct Contact Details:** Pharmacists must use their own valid and active mobile number and email ID for registration and

subsequent login. The same mobile number and/or email ID must not be used to create multiple pharmacist accounts.

5. **Authenticity of Educational Records:** All educational qualifications, certificates and supporting documents submitted during registration must be genuine, valid and original. Pharmacists shall ensure that the information furnished is accurate and verifiable.
6. **AEBAS Registration and Attendance:** All pharmacists are required to ensure their registration on the AEBAS portal, wherever applicable, and regularly mark attendance through the prescribed system in accordance with PCI instructions.
7. **Consequences of Non-compliance:** Any discrepancy, duplicate registration, submission of incorrect or false information, or submission of forged/ fabricated educational documents may result in blocking of the concerned BH-P ID and/or further disciplinary or regulatory action, including debarment from the pharmacy profession, as permissible under applicable laws, rules and regulations and following due process.

The list of identified BH-P IDs proposed for blocking is placed at Annexure-1.

All concerned pharmacists are advised to treat this matter as urgent and complete the fresh registration and AEBAS-related compliance requirements without delay. The responsibility for ensuring the correctness of personal, contact and educational details submitted on the portal shall rest with the respective pharmacist.

This issues with the approval of the Competent Authority.

Yours Faithfully
